“EDUCATION FOR THE FUTURE”

To succeed in our mission we will strive to offer:

- A suitably qualified and experienced staff body.
- A stimulating educational curriculum with constant revision to cater for changing needs.
- A clean and tidy school with facilities and grounds kept in a neat and functional order.
- An “open door” approach to parents and learners in respect of any suggestions or grievances.
- An efficient administration system.
- A safe and secure environment.
- A code of conduct for all learner, teaching and non-teaching staff.
- A relaxed, yet disciplined environment conducive to learning.

2. HISTORY OF ED-U-COLLEGE

Ed-U-College Vaal is a progressive, full-time Independent school for learners from (Grade 1 – 12) . We are situated in Vereeniging CBD. We are registered with the Department of Education (EMIS No: 700331470) as a full-time Independent School and examination centre since 1991.

Ed-U-College was founded in 1991 as the result of a request by parents whose children attended the Ed-U-College Saturday school, where enrichment courses in English and Mathematics were conducted since 1987.

Due to the success of these classes, management was approached by parents, role-players and leaders in the Vaal community to operate on a full-

time basis, as there was a dire need for quality education in a safe environment.

We offer full- time education (Grade 1 – 12) as per GDE requirements and remedial Saturday classes in English, Mathematics, Science and Afrikaans FAL.

Our school opened its doors in January 1991, with minimum resources, but with a dedicated staff body and determination we overcame obstacles and provided disadvantaged learners with the best possible opportunities and education for their future.

During our **34 years** of existence we have developed into a reputable school well known in the community and recommended by the GDE. We are proud of our achievements of being one of the top 10 schools with our Matric results in our district over the years. Despite the fact that we have learners that are academically weak and the influx of learners that were either progressed or passed through the system in public schools we have maintained excellent Matric results and will continue to do so.

Although we have limited sports facilities, acquiring full sports facilities remain a challenge and one of our aims. As a school, we will endeavour to grow and keep abreast of the changing world and all it has to offer.
